## **Cage Cleaning Checklist**

GOALS: To clean and disinfect area of disease-causing bacteria, viruses, and waste promoting the health and well-being of our animals

To provide fresh, clean, abundant water and food for each animal To make animals as comfortable as possible in this confined space – adequate padding or beds, toys, etc.

To use materials and colors that present our animals in a very favorable, eye-catching way as to promote adoption – boys in blue, girls in pink, matching colors, light cats on darker colors, darker cats on light colors, etc.

- 1. Close door to the Adoption Center and post "Closed for Cleaning" notice on door.
- 2. Do physical assessment of cat/kitten.
  - Are eyes clear with no discharge?
  - Any sneezing or nasal discharge?
  - Has the food level dropped? Are they eating?
  - Are stools normal in box?
  - Cat/kitten alert and interactive, not lethargic?
- 3 Place cat/kitten in secure area
- 4. Remove and scoop litter box. Litter should be about one-third full up the side of the box. If sides of box are soiled, replace with clean box and refill with clean litter. Discard old litter and clean/disinfect box.
- 5. Remove all toys and beds from cage. Shake out any spilled litter/food over trash can.
- 6. Remove all top linens from cage, shake over trash can, and place in plastic trash bag.
- 7. Inspect bottom layer rugs for soil/dampness. Remove, bag, and replace if needed.
- 8. Shake out bottom linens over trash can. Bag dirty/wet rugs. Set aside others.
- 9. Brush/wipe out food, litter, and debris from bottom of empty cage.
- 10. Wipe down top, sides, and bottom of cage with disposable cleaning cloth (or with disinfectant spray and paper towel), and allow to dry.
- 11. Remove water bowls, wash, disinfect, rinse well, and refill. Replace in holder. (Be careful opening and closing cage door to prevent spillage)

- 12. Top off food in food bowl with appropriate dry food (adult vs. kitten).
- 13. Replace rugs rubber side down on cage floor.
- 14. Replace linens neatly on top of rugs.
- 15. Place beds and toys back in cage.
- 16. Reintroduce cat/kittens.
- 17. Close and secure cage door carefully. Do not forget to lock!!
- 18. Close and tie bag of dirty linens for removal, cleaning, and disinfection.
- 19. Sweet litter, food, and debris off floor and discard.
- 20. Mop and disinfect floor.
- 21. Dispose of trash in back of store, depositing in appropriate trash cans.
- 22. Replace trash can liner.
- 23. Open Adoption Center door and take down "Closed for Cleaning" sign.

## \*Hilliard

Must ask for keys from a manager.
